12:00 PM [Welcome, Credits, and Certificates](#)

12:05 PM **Barrier Free Design - University Compliance**

This accessibility refresher course is designed for those involved in the facility planning, maintenance, and construction at places of education. This interactive training provides a brief overview of the laws and building codes applicable to colleges and universities as well as discussing any new changes to accessible design. It ends with a Q&A session where attendees can gain clarification on specific accessible design/build issues they face on their own campus.

Kristi Avalos

Kristi Avalos is a nationally renowned leader in providing accessibility-related services and is a sought-after speaker with a knack for using an upbeat approach to help others understand the complexities of compliance with the Americans with Disabilities Act (ADA). With over 40 years of experience, she provides expert witnessing on ADA, 504, Federal Housing Administration, and Air Carrier Access Act legal cases. In 1990 Kristi founded Accessology Too, LLC which is a national leader in providing accessibility consulting services and is one of the largest U.S. firms dedicated solely to accessibility and access issues. Since its founding, Accessology has worked closely with the Department of Justice and the U.S. Access Board to remain knowledgeable and adept with the constant changes that occur regarding ADA guidelines. Accessology has worked on numerous multi-million-dollar projects to impact accessibility compliance during all stages from schematics to construction and final inspections. Since 2005 Accessology has specialized in the development, execution, and monitoring of the required ADA Transition Plans for Title II entities to help them avoid access-related litigation since so much litigation is tied to not having a Transition Plan on file. Kristi Avalos and her team at Accessology are committed to removing structural and attitudinal barriers that adversely impact people with disabilities.

01:10 PM **The Benefits of 100% Offsite Fabricated Stainless Steel Railing Systems**

Explore the advantages of integrating 100% offsite fabricated and custom-designed stainless steel railing systems in your architectural projects.

Offsite fabrication not only dramatically improves product quality but also minimizes project waste, reduces costs, and streamlines construction processes.

Learn how architects, designers, and engineers can save significant time by specifying prefabricated architectural products custom-designed for each project, while helping their builders and contractors achieve greater efficiency.

Discover solutions that help you deliver outstanding results and set new standards in the building industry.

Démystifié l'acoustique du bâtiment multi-logement

Cette présentation explique les principes et définitions reliés à l'acoustiques du bâtiment, notamment le transfert des bruits d'impact et aériens dans les bâtiments à plusieurs étages. Vous découvrirez des moyens efficaces d'isoler les bruits à l'aide de multiples études de cas et d'assemblages plancher-plafond.

Cette présentation bénéficiera à tous les professionnels tels que les architectes, les concepteurs, les ingénieurs en acoustique, les constructeurs, les entrepreneurs généraux intéressés et / ou concernés par l'isolation acoustique des bâtiments à plusieurs étages.
