09:05 AM *Review of Session Code Process*

09:10 AM *Course to be announced*

10:10 AM Break

10:20 AM **Improving Sustainability in Concrete with Emerging Technologies**

This course offers an in-depth exploration of sustainable concrete, focusing on the use of pozzolans and Type 1L cement. Participants will learn about the enhanced durability and impermeability of concrete when these materials are used, leading to longer-lasting structures while still striving to meet today's rigid environmental goals. The course will cover the environmental benefits of using pozzolans, which reduce the reliance on traditional Portland cement and help lower carbon emissions. By understanding these advanced materials, attendees will gain insights into creating more resilient and sustainable concrete. In addition to durability and sustainability, the course will address the broader environmental impacts of concrete production and use. We will examine how incorporating pozzolans and Type 1L cement can contribute to healthier living and working spaces. The program will also highlight the role of these materials in reducing the overall carbon footprint of construction projects, promoting a more eco-friendly approach to building. Through this comprehensive overview, participants will be equipped with the knowledge to implement sustainable concrete practices in their own projects.

11:20 AM

The Benefits of 100% Offsite Fabricated Stainless Steel Railing Systems

Explore the advantages of integrating 100% offsite fabricated and custom-designed stainless steel railing systems in your architectural projects.

Offsite fabrication not only dramatically improves product quality but also minimizes project waste, reduces costs, and streamlines construction processes.

Learn how architects, designers, and engineers can save significant time by specifying prefabricated architectural products custom-designed for each project, while helping their builders and contractors achieve greater efficiency.

Discover solutions that help you deliver outstanding results and set new standards in the building industry.

Milena Martinez Vega

Marketing Coordinator | Brand Strategist Milena is a passionate professional with a deep understanding of the visual impact that stainless steel railing can bring to any architectural project. Originally from Barcelona, Spain, Milena moved to the United States in 2009 in pursuit of her career aspirations. With a keen eye for aesthetics and a passion for design, Milena joined AGS Stainless, a renowned custom-designed stainless steel railing manufacturer, in 2014. Over the past eight years, Milena's dedication and enthusiasm have driven her to explore various roles within AGS Stainless, starting as an Estimator to a Sales Development Representative and currently as a Brand Strategist and Marketing specialist. Her attention to detail and commitment to excellence earned her recognition within the organization.
